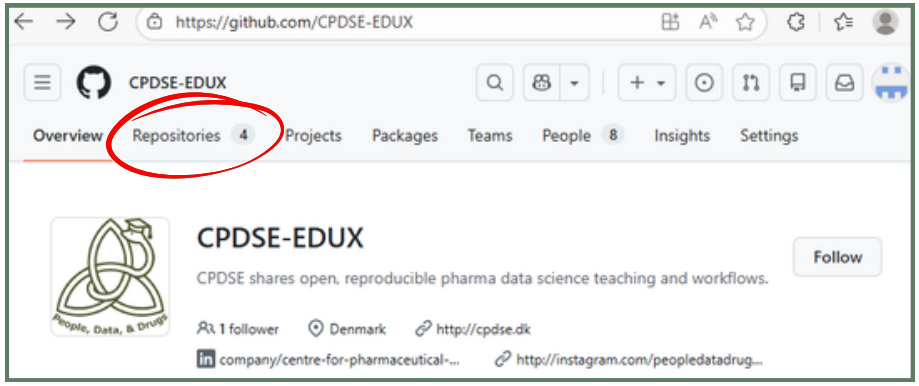
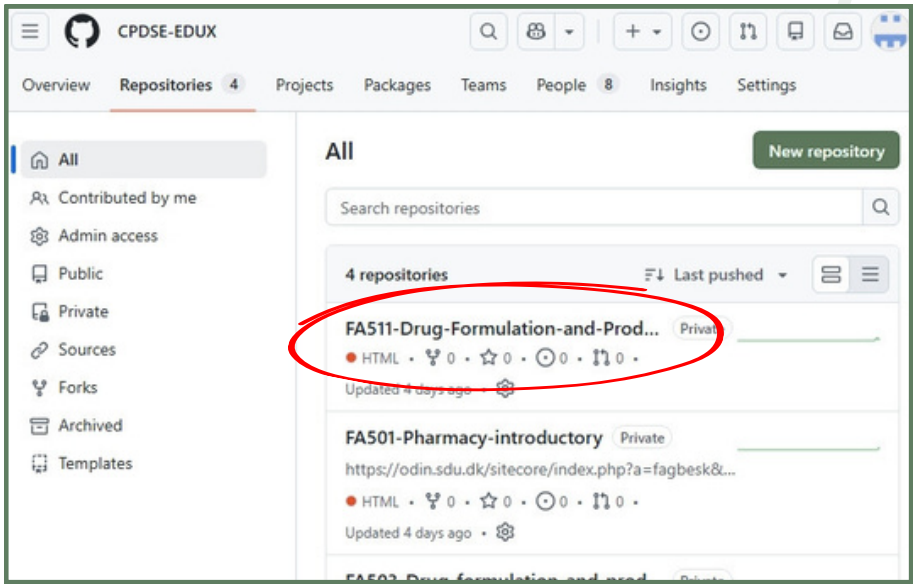
Navigating GitHub in 3 Steps » **CHEATSHEET**

People, Data, & Drugs
Center for Pharmaceutical Data Science Education



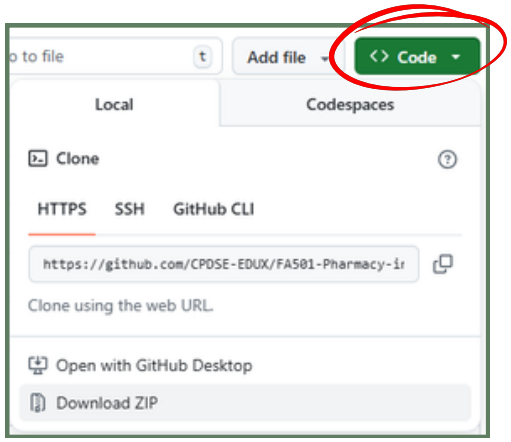
1. Go to **github.com/CPDSE-EDUX**
At the top, click on **Repositories**.



2. **Opening** a repository from the list shows you all it's **files and folders**.
(Repositories are the individual projects you can upload to GitHub.)

Download a ZIP if you only need the files once and won't update or contribute.

Clone the repository if you want to work on it, pull updates, or push changes back.



3. Click on the green Button **<> Code** to **download** a ZIP file, or **clone** the repository.
